REQUIREMENTS.TXT LINE-BY-LINE EXPLANATION

requirements.txt pins the Python packages needed to run the Flask app.

DEPENDENCIES

Line 1: Flask 3.0.3 is the web framework used by app.py.

Line 2: Authlib 1.3.2 provides optional Google OAuth support.

Line 3: mysql-connector-python 9.0.0 allows db.py to connect to MySQL.

Line 4: python-dotenv 1.0.1 is listed for .env support, although this project also has its own load_env helper.

Line 5: requests 2.32.5 is an HTTP library commonly used by OAuth/client integrations and may be used indirectly.
