TEMPLATES/LOGIN.HTML LINE-BY-LINE EXPLANATION

login.html renders the phone OTP login form and optional Google sign-in link.

TEMPLATE SETUP

Line 1: extends base.html.

Line 3: sets the Login page title.

Line 5: starts the content block.

LOGIN FORM

Lines 6-10: open the auth layout and show Login heading text.

Lines 11-18: POST form with hidden next URL, phone input, and Send OTP button.

Line 20: visual divider between phone login and Google login.

GOOGLE AND SIGNUP LINK

Lines 22-26: show Continue with Google when OAuth is enabled, otherwise show a configuration note.

Lines 28-31: link new users to signup while preserving next_url.

Lines 32-35: close the auth panel, visual, section, and content block.
